CEMENTO

A refined Venetian plaster aesthetic, characterised by soft movement, subtle shale-like impressions and handcrafted depth.

Developed & Manufactured in Australia

A fast-cure, multi-layer decorative coating system for internal walls and ceilings. Applied directly to plasterboard, MDF, or sheeting, it delivers an artisan finish, integrates smoothly with surrounding trades, and allows minimal waiting between layers. Suitable for extending across adjoining details and easily touch-up capable.

KEY FEATURES

- Quick-curing formulation for efficient application
- Dry-trade finish that works easily around other trades
- Durable surface with easy maintenance and touch-up capability
- Premium decorative finishes that offers a high-end look without the cost, weight and complexity of traditional materials

PRODUCT SPECIFICATIONS

Veneto	
Product Colours	Standard Range or Custom Made
Technology	Multi-layer, water-based latex acrylic coating system
Product Options	Walls, ceilings (plaster, MDF, FC Sheeting) architectural trims, door frames etc.
Product Quality	High-grade decorative coating for commercial and residential interiors
Additional Features	Can be overcoated with an ECOCLEAN clear coating to enhance indoor air quality and hygiene. A gloss finish is also available for a polished look.
