

WHS Policy

ECOTONE is committed to providing safe and healthy working conditions for all workers, contractors, and visitors involved in our manufacturing, coatings, and application operations.

ECOTONE establishes, implements, and maintains a WHS policy (read in conjunction with Quality Policy) that targets at:

- Achieving an incident and accident-free workplace.
- Including a commitment to provide safe and healthy working conditions for the prevention of work-related injury and ill health and is appropriate to the purpose, size and context of the organization and to the specific nature of its WHS risks and WHS opportunities.
- Making health and safety an integral part of every Managerial and supervisory position.
- Ensuring health and safety is considered in all planning and work activities.
- Including a commitment to fulfil legal requirements and other requirements.
- including a commitment to consultation and participation of workers, and where they exist, workers' representatives. The WHS policy shall:
 - be available as documented information;
 - be communicated within the organization;
 - be available to interested parties, as appropriate;
- Encouraging participation of our employees in the decision-making processes through regular communication, consultation, and training.
- Providing a continuous program of education and learning to ensure that our employees work in the safest possible manner.
- Identifying and controlling all potential hazards in the workplace through hazard identification and risk analysis and where applicable undertake health surveillance.
- Ensuring all potential accident/incidents are controlled and prevented.
- Providing effective injury management and rehabilitation for all employees.
- Providing relevant, up-to-date WHS information to all workers on matters such as workplace safety and their responsibilities.
- Providing expert assistance in WHS matters where necessary.
- Providing instruction and/or training in work processes where appropriate.
- Developing and implementing strategies which include workplace assessment, hazard identification, and appropriate remedial action to eliminate or control hazards.
- Implementing and maintaining appropriate information, reporting and statistical systems.
- Including a commitment to continual improvement of the WHS management system.
